

# Technical Risk Assessment

express

03 April 2026 · Ref: 7d64f479

## Overall Technical Risk Rating

**LOW**

## Key Findings

No significant findings.

## Transaction Implications

The codebase is production-viable with a low technical risk profile.

## Engineering Stabilisation Estimate

---

CATEGORY	SEVERITY	ESTIMATED EFFORT
No remediation required	CLEAN	N/A

---

**Overall: No immediate remediation required.**

*Estimates assume a senior developer familiar with the technology stack.*

## Tech Stack Summary

---

METRIC	VALUE
Primary language	JavaScript
Total lines	26,142
Dependencies	44
Test file ratio	64.5%

## Polaris Conclusion

---

This codebase presents a low technical risk profile. Quality grade B indicates healthy engineering practices. No material technical blockers to transaction identified.
